Text:  
Statistical Inference, Casella and Berger, second edition.

Prerequisites:  
Graduate standing in Statistics or Biostatistics, or permission from instructor. Not open to students with credit for STAT 610.

Evaluation:  
Individual Homework  20%  
Exam 1  25%  
Exam 2  25%  
Final Exam  30%

Grades are kept on Carmen.

Homework:  
All assignments are due by 12:00 noon on the date specified. NO late homework will be accepted. Instead, your lowest homework grade will be dropped from the final homework average.

While the main purpose of homework is to be sure you understand the concepts and practice the techniques, homework will also be graded. It is your job to make your homework easy to grade. Problems that are out of order or with parts not clearly identified may not receive full credit.

Homework you submit should be your own and should demonstrate your personal understanding of the problems, although I encourage you to work together in solving the problems. Feel free to ask me for help after you have made an attempt to solve the problems.
Exams: There will be three exams for this course. All are closed book and closed notes. You should bring a calculator to the exam, but no use of cell phones or other communication devices will be allowed. The exams are TENTATIVELY scheduled for:
Exam 1 Friday, Sept. 28
Exam 2 Friday, Nov. 2
Final Exam Tuesday, Dec. 11

Schedule: The tentative schedule for the course is:
