Please remember to put your TA's name on your homework.

NOTE: The problems followed by an “M” must be completed using MINITAB software. You are, of course, also welcome to use MINITAB for all other problems, if you find it useful. However, you will be responsible on exams and quizzes for doing problems of these types using calculators, and possibly without access to MINITAB.

You are required to turn in problems in Item #1. You must still solve all problems, as they will be useful for quizzes and exams.

1. Text Book Chapter 3, Problems: 15, 32, 38, 62, 90
   Text Book Chapter 5, Problems: 8, 11, 12, 58

   Text Book Chapter 5, Problems: 1, 14, 16, 20

* Note that problem 3.43 should be done using MINITAB, not using the Applet as suggested by the book.
